to learn more about these amazing programs, take a sneak peek at program materials, and get your questions answered!

Take your creative problem solving experience to the eXtreme!

Who is it for?

DI eXtreme is open to all high school and college students. Participants can sign up as a team or individually (and get placed on a team).

Get eXcited!

This ain't your mama's DI. DI eXtreme is the perfect add on to your Tournament experience. AND if you are finding you no longer have time for weeks/months of DI "Flagship," then get over it and get in, get eXtreme, and get on with your life.

DI eXtreme Global Finals Challenges will put your creativity, stamina, and even your sanity to the ultimate test. So much more than what you may have experienced locally, DI eXtreme at Global Finals will take you where no challenge has EVER taken you before!

Getting to Globals!

Even if you are also registered for a Challenge in the DI "Flagship" Tournament at Global Finals (or even if you are not!), you CAN go to Global Finals by taking your experience to the eXtreme!

Combine Creative Problem Solving with Community Service!

Who is it for?

ProjectOUTREACH is open to all middle school, high school, and college aged youth.

Change the World!

Similar to the DI "Flagship" program, in projectOUTREACH you'll assemble a team, pick a challenge, solve it, and all the while, you'll make a difference in your community!

You'll also take part in a Tournament experience to include a Team-created Exhibit, showing the details of the project and process, Tournament presentation that informs the audience and/or involves them in the project, and a Simulation, a hypothetical Challenge to be solved on Tournament day

Getting to Globals!

For teams not registered to compete in the DI "Flagship" Tournament as part of Global Finals, projectOUTREACH is another path that leads to Knoxville, Tennessee.
